

# STAR RATING

## SEYCHELLES STAR RATING

The Seychelles Islands... a place where sunsets, beaches, ocean views, palm tree and lazy days are what we want! It should be no surprise then that there is no official star rating for hotels in this island paradise. Any ratings that do exist are given by the hotels to themselves so are open to interpretation. A high star rating may be given due to the stunning beach and not the standard rooms that the hotel may offer.

The world over the standards that distinguish a 3 star from a 5 star are not universal. With most things in life – it is what you make it!

If you must refer to the star rating you can use the below as a rough guide as to what to expect:

1 Star: Basic room options, shared bathroom facilities in some cases and a vending machine near the lobby where meals are self-served.

2 Star: Basic room options, colour tv and an in-house bar/restaurant.

3 Star: Multiple room options, restaurant, gym facilities and conference room/ business facilities available.

4 Star: Multiple rooms/ suite options, restaurants and bars on site, business facilities, concierge services, swimming pool, gym and creche.

5 Star: Luxury accommodation with all of the above facilities and more.
